### **Orthoalign Design Comments**

- Overcorrection has been added in this virtual plan with regards to rotations and angulations for better tracking.
- Artefacts seen on the scan, the aligner fit may vary.

***Disclaimer:***

This is a Software based virtual treatment setup, and may or may not resemble the patients actual condition. The Company does not practice medicine or dentistry or provide any sort of medical or healthcare advice or services. The Doctor shall be solely responsible and liable for prescribing and administering orthodontic treatment upon the Patient, including prescription or usage of the Aligners and the resulting outcome.

***Confidentiality:***
